

Link Partnerships

We invite you to partner with us by adding our URL to your main page or your links page. Reciprocal linking is the most important criteria determining your website's Search Engine rankings. When you have quality and relevant websites linking to your website, the Search Engine ranking of your website will increase.

We request the following:

- Your site must be travel related
- We would prefer that your site have a Google Pagerank of at least 2
- Your links page must be linked directly from your home page. If we can't get to your links page in one click from your home page, then the link exchange will be cancelled

If all of the above are correct, then please embed the following code on your main page or on your links page (please do not alter the code):

```
<p><a href="http://www.birdie18guesthouse.com" title="eagle crest vacation rentals"><img src=http://www.birdie18guesthouse.com/images/ad-logo.jpg alt="Vacation Rentals" width=100 height=34 /> Birdie 18 Guesthouses</a>&nbsp; Offering luxury golf resort vacation rentals in Central Oregon, USA including Eagle Crest Resort, Bend and Sisters.</p>
```

Once the link code is active on your website, send us an email at reservations@birdie18guesthouse.com telling us the URL where we can find our link. Also include your code in the email.

When we have verified that our link is active on your webpage, we will load your code to our links page. Then we will send you an email with the URL to verify your link on our site.
